II. Service Requirements/Terms of Reference (ToR)

UNFPA, the United Nations Population Fund: Delivering a world where every pregnancy is wanted, every childbirth is safe and every young person’s potential is fulfilled.

Background

The three-year joint programme "EU 4 Gender Equality: Together against gender stereotypes and gender-based violence" aims at strengthening equal rights and opportunities for women and men through shifting social perceptions, gender stereotypes, and men’s participation in caretaking. The programme is funded by the European Union and implemented jointly by UN Women and UNFPA in the EaP countries at the national and regional levels.

The programme aims to shift societal perceptions around gender stereotypes and patriarchal norms limiting women's rights; improve men's involvement in the caretaking of their children and participation in father's programmes; and spur the adoption of best practices in perpetrator's programmes among the ministries of social affairs and Programme for perpetrators in the respective countries.

Key trends in Eastern Europe illustrate that elimination of gender inequality and the push towards the empowerment of women and girls represent both a driver of progress towards the Sustainable Development Goals (SDGs) and a solution for the sustainable development of the whole region.
